# Let's Talk

BRIEF TO THE PEOPLE OF SOUTH DEEP

WEEK OF 9 – 13 MAY 2022

**Martin Preece at Mining Indaba , Hypertension screening 17 May**

Benford Mokoatle  
VP: South Deep

Dear Colleagues

## South Deep's Martin Preece at Mining Indaba

Martin Preece, attended the Mining Indaba which took place in Cape Town this week where he spoke at the Minerals Council media briefing on *Climate Change, the Just Transition and Renewables*.

Martin shared information on our Khanyisa Solar Plant which is the start of our journey to investing in renewable energy sources to reduce our carbon footprint and contributing to Gold Fields 2030 ESG targets. Roger Baxter, Minerals Council CEO heralded the Khanyisa Solar Plant as an example of the change we want to see in addressing climate change. The media briefing generated a lot of interest, and the full video can be viewed on our Facebook page.

## Hypertension (High Blood Pressure) Screening - Tuesday 17 May

Next week Tuesday May 17, 2022 is **World Hypertension Day** and the theme this year is "Know your number". 1 in 3 people do not know they have high blood pressure, a leading cause of heart attacks and strokes. We encourage you all to come and have your blood pressure screening done so that you Know your number!

**When: Tuesday 17 May**

**Where: Twin Shaft**

**Time: from 10:00 – 17:00**

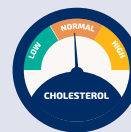

The following screening tests will be available on the day:

Blood pressure

Glucose

Cholesterol

We are going forward

We really are all South Deep. We hope you all feel a sense of pride in our Mine and all we have achieved. We encourage you to go to our Facebook page to watch the videos where our people share stories of why they are proud to be part of South Deep. It reminds us that together we have achieved a lot and that we truly live up to our Purpose which is creating enduring value beyond mining.

Some of the highlights this week include:

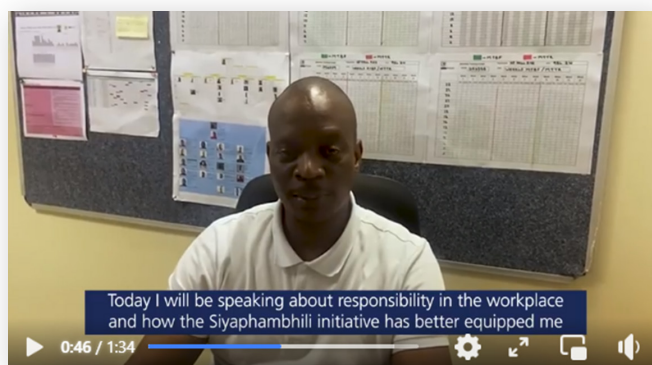

### Gerrit Lotz, VP People and Organisational Effectiveness

talks about how by providing employment and preparing people for employment through learning opportunities, bursaries and internships we, interventions are changing the lives of the recipients and creating enduring value for them and their dependents.

### Selby Mokgawa, Tackless Supervisor

tells us more about his experience and how he's been shaped into being the leader that he is today by being part of the programmes and interventions that build capability, and help leaders to manage and improve work.

At South Deep, our first and most important value is Safety. If we cannot mine safely, we will not mine. As part of the In Our Hands safety campaign, this month Leaders will take you through the Material Unwanted Event (MUE) relating to uncontrolled and unintended contact or movement with or between Trackless Mobile Machines (TMM). This MUE is one of the biggest hazards within the Mining industry and by focusing on the right critical controls we can eliminate serious injuries including permanent disability or a fatality to an employee, contractor, or visitor.

You will learn about where these incidents can occur and the critical controls that need to be in place to prevent it.

## COVID-19 TESTING UPDATE

Please note there has been a significant increase in daily positive cases countrywide. Remember to: wear your mask, sanitise hands and maintain social distance. And vaccinate!
