Provide one word that describes you

Happy

When did you develop an interest in what would become your career?

Growing up in Venda, surrounded by nature – streams, Soutpansberg mountain, animals and the forest – developed my love and interest for nature.

What motivated you in the discipline?

I saw an opportunity to contribute to environmental enhancement and conservation. I was also motivated at the career expos and believed that it would be a good career path for me.

What has surprised you most about South Deep?

Its commitment to environmental issues and care for surrounding communities.

What do you like most about your profession?

Engagements with different stakeholders. I enjoy sharing environmental challenges and solutions with colleagues, community members, regulators, etc.

If there is one thing you could change at South Deep what is it and why?

Reduce wastage – we have resources ordered and not used. We must reduce, reuse, and recycle.

Who is the person that has influenced your life, career progression and how have they done it?

My Mom. She is courageous, practical, ambitious, kind and reliable. Seeing her study at her age motivates me to aim higher and to continue studying.

What might someone be surprised to know about you?

I got married at 25 and was blessed with 3 kids, two beautiful girls and a boy.

What is your life philosophy?

Be courageous and determined.

What do you enjoy doing in your spare time?

I love sports, travelling, and small gatherings with family and friends.

Where do you see South Deep in the next five years?

The past two years have shown an upward trend, with discipline and commitment we will achieve and exceed our targets.

How is South Deep going to get there?

Everybody in the organisation must play their role and continue to invest in leadership development. We should hold each other accountable.
